

Marta Mazurkiewicz

UX RESEARCHER & PSYCHOLOGIST

EXPERIENCE

BenchSci, Senior UX Researcher

April 2022 - now, Vancouver

- I independently lead research for the Architect app projects, such as Experiment troubleshooting, Western Blot digitization, Replicating Experiments
- I introduced Research Buddy system to share feedback between researchers
- I create weekly research video updates for internal stakeholders

OLX Group, UX Researcher

June 2021 - March 2022, Warsaw

- I prepared research roadmap for teams I worked with
- I independently led research using mixed methods for projects such as Notification Center, My Account Information Architecture, Blocking users
- I analysed results and created reports
- I cooperated with internal stakeholders and external agencies

SoftwarePlant, UX Designer & Researcher

June 2018 - June 2021, Warsaw

- I cocreated our research panel called BigPicture LAB
- I redesigned Gantt chart module in BigPicture app
- I defined information architecture and user flows
- I prepared mockups and design specifications for various stakeholders
- I run moderated and unmoderated usability tests
- I used Atlassian Design System

ACHIEVEMENTS

Main award on Show Me Data hackathon by Statistics Poland

04/2018, Warsaw

Tap The Map - an Android application using AR technology, dedicated for teenagers. Teenager can learn how to compare the intensity of various phenomena in Europe.

Second award on HackPrague hackathon by HackPrague

10/2021, Prague

MeWe - app to match potential flatmates based on their spendings. I focused on the research and some parts of the UX design.
